STAT

SUBJECT: Security Violations - January 1981

Attached for your information is a report reflecting that 13 security violations were charged during January 1981 to components of the DDA. It should be noted that the January figure is artificially inflated because six of the violations actually occurred in previous months at locations outside of Headquarters. Due to reporting delays, these six violations have not been counted in previous monthly reports. Also attached is a graph which compares, by month, the number of violations for your components for the years 1979, 1980, and 1981.
